Formula No: 3842  
Revision Date: 2017/10/24  
Superseded Date: 2015/05/01

## Mirachem Rust Inhibitor (Liquid)

### 1. IDENTIFICATION OF SUBSTANCE / PREPARATION AND OF THE COMPANY

Product name: Mirachem Rust Inhibitor (Liquid)  
Identified uses: Concentrated industrial rust inhibitor additive.  
Recommended use dilution is 0.5 to 2.0% in diluted detergent systems.  
Use restrictions: Use only for the purposes indicated on the label.

Company: Mirachem, LLC  
P.O. Box 14059  
Phoenix, Arizona 85063-4059  
USA

Email address: [SDS@mirachem.com](mailto:SDS@mirachem.com)  
Customer service: USA (English) Telephone: 1 (800) 847-3527

Emergency phone number(s): USA (English, Business Hours) Telephone: 1 (800) 847-3527  
Chemtrec (US, 24 hours) Telephone: 1 (800) 424-9300

### 2. HAZARD(S) IDENTIFICATION

#### GHS Classification

Eye Damage/Eye Irritation: Category 2B  
Acute Aquatic Hazard: Category 2

#### GHS Label Elements

Pictogram: None required.  
Signal word: Warning  
Hazard statements: Causes eye irritation. (H320)  
Toxic to aquatic life. (H401)

#### Precautionary Statements

Prevention: Wash hands thoroughly after handling. (P264)  
Wear eye protection/face protection. (P280)  
Avoid release to the environment. (P273)

Response: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. (P305 + P351 + P338) If eye irritation persists: Get medical advice/attention. (P310 + P313)

Storage: None required.

Disposal: Dispose of contents/container in accordance with local/regional/national/international regulations. (P501). See SECTION 13 – DISPOSAL CONSIDERATIONS for additional waste disposal information.

### 3. COMPOSITION / INFORMATION ON INGREDIENTS

**Chemical characterization:**

Mixture (water based)

**Ingredient:**

**CAS Number**

**Percent**

Sodium Nitrite

7632-00-0

< 5

Methylbenzotriazole, sodium salt

64665-57-2

< 2

### 4. FIRST AID MEASURES

Protection of First-Aiders:	First aid responders should pay attention to self-protection and use the recommended protective clothing (chemical resistant gloves, splash protection). If potential for exposure exists refer to SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION, for specific personal protective equipment.
Inhalation:	No adverse effects are anticipated. Remove to fresh air. If breathing is difficult, get medical assistance.
Eye contact:	May cause mild temporary irritation. If eye irritation develops, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if eye irritation persists.
Ingestion:	If swallowed, treat symptomatically and supportively. Wash out mouth with water. Do not induce vomiting unless directed to do so by medical personnel. If adverse health effects develop, persist or are severe, seek medical attention if you feel unwell. Never give anything by mouth to an unconscious person.
Skin contact:	No adverse effects expected. Prolonged or repeated exposure may cause mild irritation or drying of skin. If on skin, wash with plenty of water. If irritation develops or persists, get medical attention.
Symptoms and effects, both acute and delayed:	Aside from the information provided above and below, no additional symptoms and effects are anticipated.
Notes to physician:	No specific antidote. Treatment of exposure should be directed at the control of symptoms and the clinical condition of the patient. Skin contact may aggravate pre-existing dermatitis.

### 5. FIRE-FIGHTING MEASURES

Suitable extinguishing media:	Water fog or fine spray. Dry chemical fire extinguishers. Carbon dioxide fire extinguishers. Foam. Alcohol resistant foams (ATC type) are preferred. General purpose synthetic foams (including AFFF) or protein foams may function, but will be less effective. Do not use direct water stream. May spread fire.
Unusual fire and explosion hazards:	In a fire or if heated, a pressure increase will occur and the container may burst.
Hazardous thermal decomposition products:	Decomposition products may include the following materials; oxides of carbon, nitrogen and molybdenum.
Special precautions for fire fighters:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving personal risk or without suitable training.
Special protective equipment for fire fighters:	Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

## 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:	Isolate area. Keep unnecessary and unprotected personnel from entering the area. Spilled material may cause a slipping hazard. Use appropriate safety equipment. For additional information, refer to SECTION 8 - EXPOSURE CONTROLS AND PERSONAL PROTECTION. Refer to SECTION 7 – HANDLING AND STORAGE, for additional precautionary measures.
Environmental precautions:	Prevent from entering into soil, ditches, storm sewers, waterways and/or ground water. See SECTION 12 – ECOLOGICAL INFORMATION for additional information.
Methods for cleaning up:	Contain spilled material; keep from entering soil, surface waters or sewers.  <i>Small Spills:</i> Clean up with absorbent and collect absorbent for disposal in accordance with Federal, State or local disposal requirements.  <i>Large Spills:</i> Dike or otherwise contain spilled material to insure runoff does not reach a waterway. Collect and drum off material for disposal in accordance with Federal, State or local disposal requirements. Notify local, state or federal authorities if required. Rinse with water. Material may be neutralized for safer handling with a dilute solution of vinegar or citric acid. See SECTION 13 – DISPOSAL CONSIDERATIONS and SECTION 15 – REGULATORY REQUIREMENTS for additional information.

## 7. HANDLING AND STORAGE

Precautions for safe handling:	Avoid contact with eyes. Wash hands thoroughly after handling. Keep container closed. Promptly clean up spills. See SECTION 8 - EXPOSURE CONTROLS / PERSONAL PROTECTION for additional information.
Conditions for safe storage, including incompatibilities:	Keep containers tightly closed. Protect from freezing; may rupture or degrade product. Store between 40°F (4°C) and 110°F (43°C). Keep out of reach of children.  The shelf life for unopened containers stored under the above conditions is 12 months from the date on the package.
Recommended packaging materials:	Use original container or clean plastic (polyethylene) containers.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Control parameters:	None established (under ACGIH or OSHA.)
Engineering controls:	No special requirements. Good general ventilation should be sufficient to control worker exposure to airborne contaminants.
Eye/Face protection:	Wear safety glasses with side shields or chemical goggles where conditions may cause eye exposure.
Skin protection:	Under intended handling conditions, no protective clothing should be needed. Use protective clothing as required for the situation. Where diluted product is heated to >140°F, wear thermal protective gloves.
Hand protection:	Under intended handling conditions, no protective gloves are required. Use protective gloves as required for the situation. Nitrile, vinyl or latex gloves of 4 mil thickness or greater are recommended. Where diluted product is heated to >140°F, wear thermal protective gloves.
Respiratory protection:	Under intended handling conditions, no respiratory protection is needed.
Personal hygiene:	Use good personal hygiene. Do not consume or store food in the work area. Wash hands before smoking or eating.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

<b>Appearance:</b>	Clear pourable liquid, light yellow to yellow	<b>Vapor pressure @ 20°C @ 37°C</b>	Not established Not established
<b>Odor:</b>	Sour chemical	<b>Vapor density (air = 1)</b>	Not established
<b>Odor threshold:</b>	Not established	<b>Relative density:</b>	Not established
<b>pH:</b>	12.0 – 12.4	<b>Solubility in water:</b>	Complete
<b>pH at use dilution:</b>	10.5 – 11.0	<b>Partition coefficient:</b>	Not established
<b>Melting point:</b>	Not applicable to liquids	<b>Auto-ignition temperature:</b>	Not established
<b>Freezing point:</b>	32°F (0 °C)	<b>Decomposition temperature:</b>	Not established
<b>Initial boiling point:</b>	212°F (100°C)	<b>Viscosity @ 20°C:</b>	< 100 cSt
<b>Flash point:</b>	Non-flammable (will not burn)	<b>Liquid density @ 20°C:</b>	1.11 + g/cm3
<b>Evaporation rate</b>	> 1 (Butyl Acetate = 1)	<b>VOC</b>	0 g/l (0.0 lb./gal)
<b>Flammability:</b>	Not classified		

## 10. STABILITY AND REACTIVITY

Chemical stability & reactivity:	The product is stable.
Possibility of hazardous reactions:	Under normal conditions of storage and use, hazardous polymerization will not occur. Reacts with acids, ammonium salts, reactive metals and some organics. Contains nitrites, which may react with secondary and tertiary amines in acidic conditions to form nitrosamines. Some nitrosamines have been found to cause cancer in animal studies.
Conditions to avoid:	No specific data.
Incompatible materials:	Strong oxidizing agents, strong acids, and strong reducing agents. Do not mix with amines.
Hazardous decomposition products:	Under normal conditions of storage and use, hazardous decomposition products should not be produced. Thermal decomposition may produce oxides of carbon, nitrogen and molybdenum.

## 11. TOXICOLOGICAL INFORMATION

The GHS health hazard classifications have been calculated adhering to GHS guidelines for mixtures. The Acute Toxicity Estimates for this mixture (ATE<sub>mix</sub>) are representative of these calculations.

Likely routes of exposure: Inhalation \_\_\_\_\_ Skin contact  X  Eye contact  X  Ingestion \_\_\_\_\_

### **Acute Toxicity:**

Oral:	Not classified (OSHA HCS 2012)	LD <sub>50</sub> ATE <sub>mix</sub>	> 500 but < 2500 mg/kg
Dermal:	No relevant data available.		
Inhalation:	No relevant data available.		
Other routes:	Not applicable.		
Skin corrosion/irritation:	May be mildly irritating to skin. (Not classified under OSHA HCS 2012)		
Serious eye damage/irritation:	May cause eye irritation.		
Skin sensitization:	No component of this mixture is known to be a skin sensitizer.		
Respiratory sensitizer:	Not expected to be a respiratory sensitizer.		

### **Chronic Toxicity:**

Mutagenicity:	No component in this mixture is known to be a mutagen or genotoxin.	
Carcinogenicity:	No component of this mixture is listed by IARC, NTP, OSHA, or ACGIH as a carcinogen.	
Teratogenicity:	No component in this mixture is known to be a teratogen.	
Developmental / Fertility effects:	No known significant effects or critical hazards.	
Specific Target Organ Toxicity (STOT)	Single dose:	No relevant data available.
Aspiration hazard:	Repeat exposure:	No relevant data available
		No relevant data available.

## 12. ECOLOGICAL INFORMATION

The GHS environmental hazard classifications have been calculated adhering to GHS guidelines for mixtures. The Acute Aquatic Toxicity Estimates for this mixture (ATE<sub>mix</sub>) are representative of these calculations.

### Toxicity:

Acute Aquatic Toxicity	Fish	Category 2	LC <sub>50</sub> ATE <sub>mix</sub>	> 1 but < 10 mg/l
	Crustacea	Category 3	EC <sub>50</sub> ATE <sub>mix</sub>	> 10 but < 100 mg/l
	Algae	No relevant data available.		
Chronic Aquatic Toxicity	No relevant data available.			
Persistence and degradability:	The individual ingredients of this mixture are readily biodegradable.			
Bioaccumulative potential:	No relevant data available.			
Mobility in soil:	No relevant data available.			

## 13. DISPOSAL CONSIDERATIONS

The generation of waste should be avoided or minimized wherever possible. Empty containers may retain some product residues. Rinse container before disposal. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Avoid dispersal of spilled material and runoff with soil and waterways.

RCRA Classification: Unused disposed material is not a RCRA Hazardous Waste.

Note: Chemical additions to, processing of, or otherwise altering this material may make this waste management information incomplete, inaccurate, or otherwise inappropriate. Furthermore, State and local waste disposal requirements may be more restrictive or otherwise different from Federal laws and regulations.

## 14. TRANSPORT INFORMATION

UN Number:	UN 1760	Transportation Hazard Class:	8
UN Proper Shipping Name:	Corrosive Liquid, n.o.s.	UN Packing Group:	PG III
ADR (EU Carriage):	Class 8: Corrosive, PG III	RID (Rail)	Class 8: Corrosive, PG III
AND/ADNR (Inland water):	Not available	ICAO/IATA (Air)	Class 8: Corrosive
IMO/IMDG (Marine):	Class 8: Corrosive	DOT Hazard Classification:	8
DOT Shipping Name:	UN 1760 Corrosive Liquid, n.o.s. (contains Sodium Nitrite and Methylbenzotriazole, sodium salt)		
NMFC Freight Class:	Cleaning Compound NOI, 048580 Sub 3, Class 55		
HS Tariff Classification (Schedule B)	3403.19.50		
Special Precautions:	No known special precautions.		

## 15. REGULATORY INFORMATION

### US Federal Regulations

#### SARA Title III

Section 302 – Extremely Hazardous Substance

This product does not contain chemicals at levels which require reporting under this statute.

Section 302.4 & 304: CERCLA: Hazardous Substances

Releases of this product to air, land, or water are not reportable to the National Response Center under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) or to state and local emergency planning committees under the Superfund Amendments and Reauthorization Act (SARA) Title III Section 304.

Sections 311 & 312

Immediate (acute) Health Hazard	Yes
Delayed (chronic) Health Hazard	No
Fire Hazard	No
Reactive Hazard	No
Sudden Release of Pressure	No

Section 313

This product does contain chemicals at levels which require reporting under this statute.

Sodium Nitrite (CAS No. 7632-00-0) 100 lbs.

#### TSCA

All chemical substances in this material are included on or exempted from listing on the TSCA Inventory of Chemical Substances.

### US State Regulations

#### **Arizona**

Maricopa County Rule 331

This product is considered a Low-VOC cleaner.

#### **California**

California Safe Drinking Water and Toxic Enforcement Act (Proposition 65)

This product does not contain any materials currently listed by California as chemicals known to cause cancer or known to have reproductive toxicity under Proposition 65.

#### **Georgia**

Rule 391-3-02

At use dilution, this product is greater than 80% water which qualifies this as an "Aqueous Cleaning Solvent". As an "Aqueous Cleaning Solvent" this product is exempt from Rule 391-3-02.

#### **Michigan**

Rule R 336.1281 & R 336.1212

The absolute (composite) vapor pressure of this product in either concentrated or diluted form is less than 0.1 mm Hg under standard conditions. Part (e) under R 336.1281 exempts this product from the requirement for a "Permit to Install". The vapor pressure for this product exempts it from the recordkeeping requirements of R 366.1212 as indicated in Part (3)(b) and clarified by MDEQ interoffice communication of July 5, 2011.

#### **Pennsylvania**

Hazardous Substances List

This product does contain a chemical listed as an environmental hazard that may require reporting. Sodium Nitrite (CAS No. 7632-00-0)

### International Regulatory Information

Notice: The information herein is presented in good faith and believed to be accurate as of the effective date shown above. However, no warrantee, express or implied is given. Regulatory requirements are subject to change and may differ from one location to another; it is the buyer's responsibility to ensure that its activities comply with their Federal, State/Province, and local laws. The following specific information is made for the purpose of complying with numerous specific foreign regulations.

### Country Substance (Chemical) Inventories

Canada

DSL

The individual components of this mixture are listed.

United States

TSCA

All chemical substances in this material are included on or exempted from listing on the TSCA Inventory of Chemical Substances.

## 16. OTHER INFORMATION

### **HMIS Rating:**

Health	1
Flammability	0
Physical Hazards	0

Protective Equipment

### **NFPA Rating:**

Health	1
Flammability	0
Reactivity	0

Special

All information and instructions provided in this Safety Data Sheet (SDS) are based on the current state of scientific and technical knowledge at the date indicated on the present SDS. Mirachem shall not be held responsible for any defect in the product covered by this SDS, should the existence of such defect not be detectable considering the current status of scientific and technical knowledge.

Original Preparation Date: May 1, 2015  
Latest Revision Date: October 24, 2017
